## Boycott Calls Against Israel

**An open Letter to Professor Menachem Magidor and the members of Israel's Forum to combat the academic boycott**

[An open Letter to Professor Menachem Magidor and the members of Israel's Forum to combat the academic boycott](#)

Recent reports tell us that leading members of Israel's academic institutions are organizing to "fight the international boycott." We are told that Israeli academics are outraged at this "unwarranted attack on Israeli academic freedom."

In order that the issue of academic freedom may be discussed within a context free of hypocrisy, we, the undersigned, defenders of Palestinian academic freedom and supporters of the academic boycott against Israel, call for a response to the deterioration of Palestinian education as a consequence of Israeli policies from those leaders of Israel's universities who now organize to fight the boycott.

Academics worldwide should have an accurate picture of the situation that has long confronted Palestinian education: the Israeli government has set up a system of roadblocks and checkpoints that makes it difficult or impossible for Palestinian teachers and students to reach their universities, colleges and schools. Its policy of harassment, arrests, random shootings and assaults is carried out almost weekly by Israeli troops on Palestinian campuses. All of this takes place against the backdrop of an ongoing 37 year occupation and relentless attack on Palestinian civil society, thus disrupting the necessary framework for any successful educational structure. Such Israeli government policies negate Palestinian academic freedom.

Given the destructive nature of Israeli government action against Palestinian education and academic freedom, and your simultaneous expression of concern for Israeli academic freedom in the face of the boycott, we feel that it is only fair to ask the Israeli academic leadership where it stands on the issue of current Israeli policy as described above, and to share with us what Israeli academic institutions are doing to challenge the behavior of your government.

Finally, to help you do this we are prepared to join you and other parties in public debate of the academic boycott of your institutions at any time and in any neutral venue.

Sincerely,

The Undersigned
