

Quotes from March 6, 2014 Antisemitic and Anti-Israel Event at SFSU:

Jaime Veve (Husband of Rabab Abdulhadi)

38:13 - And we also met political prisoners who were recently released as a result of exchange with the Israeli army. People who had committed political acts of defiance and resistance for what they call terrorism. So, that when you meet Palestinians it's hard to escape this reality you have. There is no way you cannot discuss the question of prisoners. It's a reality. It's in your face. And within Palestine, they're not looked upon with denigration. They're looked upon as heroes or heroines for their mere defiance and resistance.

45:35 - The Palestinian struggle has gone through different phases and even when they did the most extreme actions, it usually was the cry of a baby calling for the attention of the world.

Rabab Abdulhadi – Terrorism & Collaboration with Universities Promoting Terrorism

1:06:33 - Leila Khaled now is an icon in the liberation movement and she is an icon for women's liberation.

1:47:57 - 1:47:56 - The other thing is collaboration. And we do have a lot of possibilities with collaborating with academic institutions, especially with academic institutions in Palestine. We're close to having an agreement with An-Najah University and Birzeit University. And it would be really nice to know if students would like to go, for instance, spend summer school. We were talking about (?) teaching, having summer school together teaching certain courses... There is a lot of possibilities.

Rabab Abdulhadi – Destroy Israel / Antisemitism

1:05:19 - The Zionist movement says this will all destroy Israel. So, destroy Israel.

1:05:34 - Today, there's also the interest of the United States. So, not everybody in the U.S. government is actually, really, pro-Jews. There are anti-Semites.

1:05:42 - And even the Christian Zionists, who are actually the born again Christian, the churches and so on, who are like going to Israel and supporting and so on. Just look what they're saying. They're saying they need to support that because the more they give Israel rights, that it will bring it closer to the Messiah and the end of the world. So, they're actually not supporting Israel in order to survive, they're supporting Israel in order to destroy the world.
