

The statement below, signed by Brown University faculty members, was originally acquired from the public link [HERE](#).

AMCHA Initiative Note: In arguing that Brown leadership should “reconsider ongoing partnerships with the [Israeli] regime, such as the Nelson Center’s social entrepreneurship and social innovation internship programs,” the petition is calling for the implementation of an academic boycott of Israel, which, if put into effect, would restrict the educational opportunities and academic freedom of students and faculty who want to study about or in Israel.

LETTER IN SOLIDARITY WITH THE PALESTINIAN LIBERATION STRUGGLE

(First shared on May 15, 2021; revised to remove May 15th protest event information on May 17, 2021)

As we witness Palestinians, once again, rise up against the fragmentations and borders that a century of colonization has imposed across the region and the world, we write to express our unequivocal solidarity with the Palestinian people and condemn Israel’s settler-colonial project, human rights violations, and war crimes in Palestine.

We condemn Israel’s incessant efforts to dispossess and displace 28 Palestinian families in the Sheikh Jarrah neighborhood in Jerusalem, in order to replace them with Israeli settlers. The recent attempted expulsions are part of Israel’s long-standing project of ethnic cleansing and dispossession.

We condemn the continued bombardment and murder of at least 145 Palestinian men, women, and children in Gaza, the [displacement of some 10,000 Palestinians in Gaza](#) as a result of Israel’s offense, and the systematic and deliberate destruction of Gaza’s infrastructures, already debilitated by a decades long blockade. That, in addition to inflicting trauma on Palestinians and causing them to suffer from [anxiety disorders, PTSD](#), and further [acute and as-yet-medically-unlabelled PTSD](#).

We condemn the continued Israeli police-, intelligence-, and state-backed settler brutal violence against Palestinian citizens in Israel, as well as Palestinians in the occupied territories.

We condemn the Israeli police’s ruthless attacks on Muslim worshippers in al-Aqsa Mosque compound with rubber bullets, stun grenades, and tear gas canisters during the holy month of Ramadan, as well as against Christian worshipers in the Church of the Holy Sepulchre during Easter.

We condemn the Israeli attacks on health workers, medical facilities, journalists, and media outlets, in addition to the attacks on activists for documenting Israeli aggressions.

We condemn [Israel's medical apartheid regime](#). Israel has withheld much-needed COVID-19 vaccines from Palestinians in the West Bank and Gaza during a deadly pandemic, while administering an internationally lauded and extremely effective vaccination program for the Israeli settlers who reside in illegal settlements throughout the West Bank.

The recent episode of Israeli brutality must be viewed in the context of the Palestinian Nakba ("Catastrophe") of 1948, which has continued to be an ongoing reality for the Palestinian people for the past 73 years. The 800,000 Palestinians forcibly displaced in 1948 now comprise a community of 7 million people spread across different borders and subordinated to different legal regimes. The Palestinians who remained in Israel and the occupied territories are facing a two-tiered-citizenship structure, which is engineered to deny Palestinians of their rights of citizenship, residency and return to their homeland, while it guarantees unconditional citizenship to every Jewish person under the 1950 Law of Return.

Recent reports by key human rights organizations, including [Adalah](#), [B'tselem](#), and [Human Rights Watch](#), assert that the Israeli regime is an apartheid regime which uses laws and practices to guarantee the supremacy of one group of people over another. For the past 73 years, Palestinians have been withstanding systematic and institutionalized dehumanization, violence, racism, dispossession, expropriation, and forced displacement. In addition, they have lived with restrictions on day-to-day freedom of movement, expression, worship, and right to education and healthcare. **We call upon Brown University and the Brown community to take a stance against Israel's settler colonialism and in support of the Palestinian people.**

Following the students' [referendum vote](#) in favor of divestment, as well as the [Corporate Responsibility Committee's vote](#) to divest from companies that profit from the Israeli occupation, we call on Brown's leadership to take action on these votes. Brown has committed to a [vision of equity and inclusion](#) and has repeatedly denounced systemic and institutional racism, so we ask that this orientation towards justice does not exclude Palestine. In line with the 2019 referendum, we call on Brown University to "divest all stocks, funds, endowment and other monetary instruments from companies complicit in human rights abuses in Palestine and establish a means of implementing financial transparency and student oversight of the University's investments."

We call on members of the Brown community to commit to the [BDS Movement \(Boycott, Divest, Sanctions\)](#) in support of the Palestinian cause. The BDS movement seeks to end our individual and collective complicity with [Israel's apartheid regime](#) through applying international economic and political pressure until Israel upholds its obligations under

international law. Brown leadership and leaders within the community should use these efforts to reconsider ongoing partnerships with the regime, such as the Nelson Center's social entrepreneurship and social innovation [internship programs](#). We have learned from the brilliant liberation struggle staged by Black South Africans that [BDS](#) is an effective means by which to combat and end apartheid.

We also encourage members of the Brown community to [break the culture of silence](#) surrounding Palestine and express solidarity and support with Palestinians' 73-year-long liberation struggle. Edward Said stated, "When it comes to Palestine, fear of speaking out about one of the greatest injustices in modern history has hobbled, blinkered, muzzled many who know the truth and are in a position to serve it." We urge the community to protect Palestinian and pro-Palestine voices on [campus](#) from [censorship and harassment](#), and to stand up against the continued suppression of pro-Palestinian advocacy. We encourage scholars in the Brown community to read, cite, and engage Palestinian scholars and uplift their voices and viewpoints. We further encourage you to seek out Palestinian voices on social media and to amplify their experiences, which have been silenced and marginalized by mainstream media outlets. We stand with the [many Jewish organizations and activists](#) who condemn Israeli settler colonial violence and apartheid and refuse to categorize the Palestinian struggle for liberation as anti-semitic.

As members of the Brown community, we work, live, and study at an institution built on stolen [Narragansett](#) land and built by [stolen labor](#). The ongoing legacy of slavery, settler colonialism and the academic and non-academic entanglements of empire recommit us to our duty to rise up against settler colonialism, apartheid, racism, ethnic cleansing, genocide, anti-semitism, and state violence everywhere around the world, and our struggle is incomplete without the fight for Palestinian liberation. **Join us in upholding the Palestinian resistance and [sumud](#) against Israeli settler-colonialism, occupation, apartheid and the general negation of Palestinian life.**

For more information on actions and resources, please refer to the [resources list](#).

[To sign the letter, please add your information here](#) and we will update the letter with your signature.
