## **Petition in Support of USG's Statement on Palestine**

We, the undersigned, support the incoming Undergraduate Student Government of the University of Chicago and Students for Justice in Palestine UChicago in the writing *and* publishing of [their statement](#) standing for Palestinian liberation. We hope that this petition of University support will show that this statement was a justified and necessary commitment to Palestine, that absolutely does speak for many University constituents, particularly Palestinian students. We, the undersigned, support a USG that stands for a Free Palestine.

We resent and reject the idea that the incoming Undergraduate Student Government's statement is, in any conceivable or rational interpretation, antisemitic, too divisive, or that the usage of the phrase "[from the river to the sea](#)" signifies anything other than a commitment to justice and liberation for all who reside in Palestine.

This petition is ongoing, and has only been live for 3 days as of June 1, 7:30pm. To add your name, please [sign here](#). This document will be updated accordingly.

Signed,
